## (54) ALIPHATIC POLYESTER FOAMED SHEET

### (57)Abstract:

**PROBLEM TO BE SOLVED:** To provide an aliphatic polyester foamed sheet having degradability in the natural environment and excellent processability such as nailing stability.

**SOLUTION:** The aliphatic polyester foamed sheet is composed of an aliphatic polyester composition comprising titanium oxide having 0.1–0.5 µm average particle diameter in an amount of 0.5–25 pts. mass based on 100 pts. mass of aliphatic polyesters. The aliphatic polyester expanded sheet has 0.1–1.0 g/cm<sup>3</sup> density, 1–300 µm average cell diameter and 0.3–20 mm average thickness.
